

Buying and selling on GUMTREE

Prepared by David Muir (February 2019)

Type in what you are looking for – narrow then search by specifying a category.

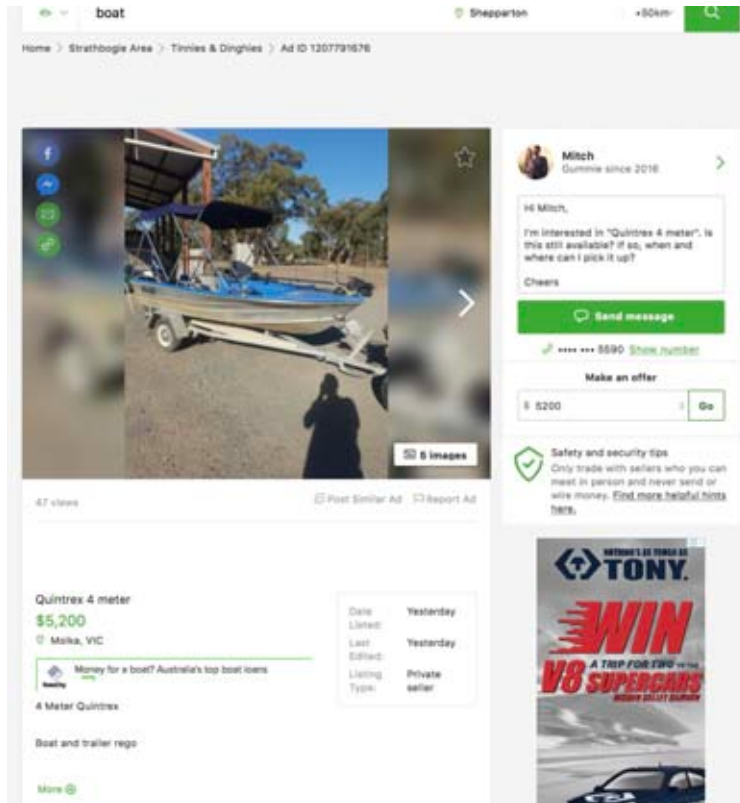

Selling and buying from Gumtree requires you to register – Name, address and phone details (These will then be automatically completed in any ads you post).

A selection will be offered giving a summary of the item for sale, its price and location.

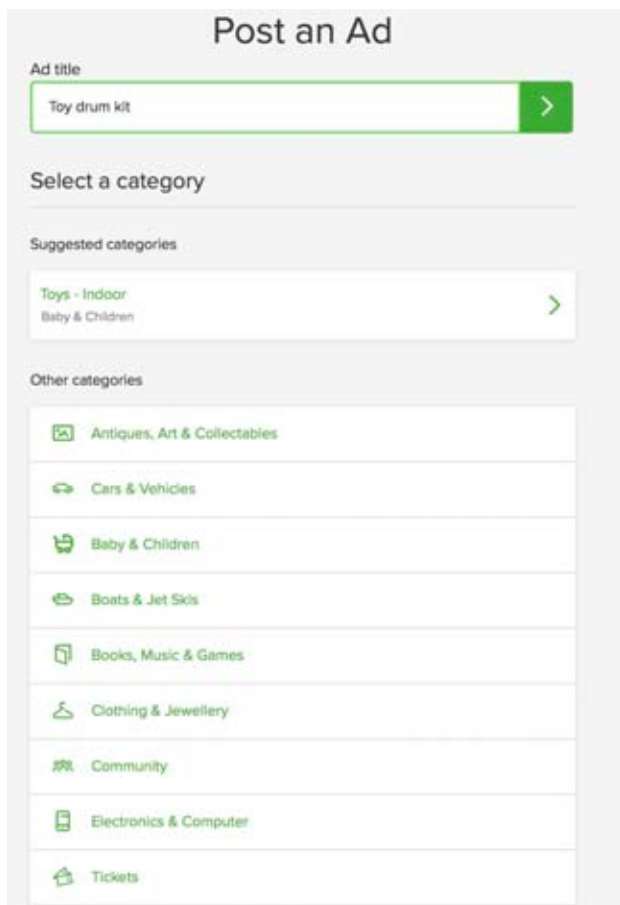

It is possible to save the posting by clicking on the star on the right-hand side of the listing.

Click on the listing to view the full details of the item.

The full listing will have photos, when the listing was posted and full details (may need to click on the **More+** link under the ad.

It is also possible to send the seller and email and/or make an offer to purchase.

1. Click on the Post an Ad button on the Gumtree Home Page.

2. Give the ad a title and select a category

 In a hurry? Add an Urgent tag to your ad and show people you're ready to sell ASAP! It's a great way to attract serious offers quickly.

3. Fill in the details including price, condition, accurate description and whether price negotiation is accepted.
4. Depending on how quickly you wish to sell the item, it can be posted for free or at various prices depending on its presentation on the website.

2 / 5 Pictures

For best results, we recommend choosing landscape images.

 Ads with pictures are more successful! You can upload images up to 4MB. Drag and drop files onto this window to upload.

 Pick up and drag the images around to reorder them.
