A big thank you to David for organising our Uke3A page on the GVU3A website.

Taking Notes caught up this week with GVU3A's friendly and likable Program Co Ordinator Greg . Here's what Greg had to say to TN in our interview.

"Getting to Know You" – Greg

TN – How has the Ukulele Program at GVU3A benefitted you personally?

GB – The Program has given me an insight into the subtleties of music. I now appreciate music more and appreciate good musicianship.

TN – What do you consider is the most challenging aspect when learning an instrument?

GB – Probably nothing really, I enjoy the process of learning the ukulele even though it takes a long time for any substantial progress. I appreciate how sometimes the melody of the voice weaves around the chords, about how some songs rely on the chords to give it a "tune" and how (in) other songs where the chords and the voice appear to have nothing to do with each other, and yet , fine music results.

TN – Briefly, can you summarise your "Working Life's History"?

GB – I worked in Agricultural Research in the Entomology, Pathology and Botany Sections. (During)another era I worked with internal and external animal parasites.

TN – What are your current interests?

GB - I like Sailing, History, Science, Geology, Reading Books, Riding bikes, Family and arguing with Deb.

TO BE CONTINUED IN NEXT WEEKS EDITION.....Not to be missed!

Happy Strumming – Aloha John (John Canty is a member of AUTLA
- AUTLA is a professional network of Australian ukulele teachers and leaders across Australia)

IMPORTANT

Next Monday 27/4 we will be using the following songs

Amazing Grace

Bachelor Boy

Bad Moon Rising

Blame it on the Bossa Nova

Daisy a day

From a Jack to a King

Green Door

Aloha Oe'
